## Twenty-five Dollars Reward.

RAN AWAY, sometime in the months of No-

vember or December last,

A NEGRO MAN by the name of SAM,

who was hired in the town of Alexan-

dria to Mr. Robert Smith. He was about 30

years of age, about 5 feet 10 or 11 inches

high, very stout, of rather a yellowish or tan

complexion, stutters a little, has a soft

voice, and generally seems humble and timid

when spoken to. He had a wife at Col. Jem-

meson's, in the county of Caroline, and may

perhaps now be lurking in that neighborhood,

but I think it more probable he may have

gone to the state of Virginia and brought to me I

will give the above reward; if in the state of

Maryland and brought to me I will give Thirty

Dollars reward.

LONDON, June 17.

It is truly lamentable, say the demi-official papers, that the opposition should be so barbarous and hard-hearted, as to menace an attack on the present *innocent* administration, on the first day of the session! But it is absolutely true, for a threatening letter has been dispatched from Stratton street, and nobody but lord Hewitt could have written it, *because*—admirable logicians!—his lordship lives in that street. Now, it is cruel in the extreme not to allow the ministry to call their friends together, and vote addresses in their own way, without any factious opposition! Who could possibly think of condemning his majesty's speech, right or wrong? or who could presume to anticipate what it may contain? It is not possible, that it can hint at new continental connections, to be supported by our men or money—it is not possible that it can refer to the institution of enquiries into abuses, in any *particular* way, and much less can it be possible, that it shall convey any thing in the shape of abolition to the new minister from the

BANKS OF THE ELBE, June 6.

While the measures of the king of Sweden indicate no decline of zeal in the common cause, the French papers continue to hold forth the language concerning him, which might reasonably excite suspicion, had we not full confidence in the character of the monarch, and were we not well acquainted with the perfidious arts of sowing dissensions and jealousy, in which the enemy is without a rival. It is sometimes amusing to observe how suddenly the French papers change their tone. To-day, it is to be expected that the wisdom of the British cabinet will soon make them perceive that England has more to fear from the vast power of Russia than even France; and that an union of these two states is necessary for their common existence:—To-morrow, attempts will be benevolently

PROCLAMATION OF GENERAL  
BLUCHER.

**"Inhabitants of the Prussian monarchy! Recollect the state of your country, when not one, but many enemies, made war against it, during seven long years. Be mindful of the glory of your ancestors, who were its brave and victorious defenders; shew yourselves worthy of them; and learn like them, to conquer or die!"**

NEW YORK, August 11

Our London and Liverpool papers by the ships Mount Vernon and Commerce are not later than those received at the office of the Mercantile Advertiser by the ship Pallas;—but we have completed and given extracts from our file of Lloyd's Lists to the 25d June.—The London papers also furnish the following articles.

LONDON, June 20

The Dutch papers which we have lately received mention the departure of king Louis as being merely occasioned by the state of his health, and are perfectly silent with respect to any political changes which are expected in that unfortunate country. But private accounts assign very different motives for the journey of the new king. Although the people of Holland could not but feel great repugnance at having their constitution changed from a republic to a monarchy, and having a foreigner placed over them as a king; yet the mild and conciliatory conduct of Louis Bonaparte had made considerable impression upon them. He appeared to feel very acutely for the misery to which his new subjects had been reduced by the total destruction of their trade; in consequence of the violent edicts issued by Bonaparte, prohibiting all kinds of commercial intercourse between Holland and this country. He endeavored, but in vain, to obtain some mitigation of them; and it is stated that he has incurred the serious displeasure of the French ruler, by not enforcing those commercial regulations with due severity. For this offence an opinion prevails in Holland that he is to be deprived of his crown, and the regret which they feel at losing the mild Louis is considerably increased by the apprehensions that he is to be succeeded by Murat, who certainly will not incur the displeasure of his master by executing his orders with too much lenity.

A report was current this morning that intelligence had been received of an armistice having been concluded between the belligerent powers on the continent. This report rests entirely upon the authority of private letters. Government have not received any official information upon the subject.

## Alexandria Daily Advertiser.

SATURDAY, August 15.

We have received no mails from the south for the two last days, owing, it is supposed, to the heavy rains. Accounts from that quarter lead us to apprehend considerable damage has been done. The bridge at Colchester has been carried away by the Fresh—as likewise the bridge at Ocquan, and the dams at the latter place have been injured. The mill-dams at Dumfries have also been broken, and it is feared intelligence from other quarters will not prove more favorable.

No Northern mail this day—The fresh in the Potomac is so great that the ferry boats cannot cross.

One ounce of powder will burst one hundred pounds weight. An Experiment made in Europe, with a 24 lb. shot against a sand wall, it was found that the ball entered 22 feet; 6 lb. shot, at the distance of 500 feet, entered 10 feet within the wall; heavy cannon, such as 48 and 36 pounders, at the distance of 1200 feet entered 10 or 12 feet—this ball will fly in one second 368 feet: in half a minute 2 miles.

The following shews how far a ball of the different calibres entered an oak wall, at the distance of 1000 feet, viz.

English three deckers carry 42 lb. canon of lower battery, in a seventy four 32 lb. canon. French, Russian and Spanish three deckers carry 48 lb. of lower battery, in an eighty and seventy four 36; the Danish, Dutch and Swedes, of same calibre. All the cannon that is mentioned must be loaded with one third part weight of the balls in the mortars, one ounce and a half for the bomb filled with powder, 80 or 90 degrees force.

N. B. if government should require guns and mortars of heavy metal, to defend their seaport towns, as given above, I would engage to furnish correct proportions of the size and other particulars relative to them, and likewise the construction and the preparation of the carriages to work them, by light mechanical contrivances. I would furnish plans for the whole for a proper compensation; and by so doing I am confident the advantages arising from the same would supercede all other improvements in this part of the globe.—Besides a considerable saving would arise in the end, and finally be a means of better security from attack by an enemy.

## Valuable Property for Sale.

THE subscriber being desirous of procuring some good lands in the south-western country, and to enable him to do so, offers the following Property for sale, viz.

A Tract of Land, situate in the county of Fairfax and state of Virginia, whereon I now reside, containing upwards of 2 100 acres. This land is well adapted to farming, is level, well watered and timbered, full one half being in wood, near the center of which stands the county court-house and other public buildings, which are included within the bounds of a town lately laid out at this place, authorised by an act of the general assembly of Virginia, on several of which lots buildings have been erected, &c. On one acre thereof, near the court-house, is a large two-story brick house rented and occupied as a tavern, together with large stables, lichen, and house for the retirement of a family, &c. Perhaps there is no situation between the east and western waters more public, or that afford better stands for taverns, stores, mechanics, &c. Particularly to an inn-keeper calculated to act on a large scale. The Little River runs like a paved road, leading from Alexandria, to the westward, passes, immediately at this place, as also the main public and post roads, leading to and from Alexandria, George Town, the City of Washington, Baltimore, and the western country—distance from Alexandria, 14; and from the City of Washington 15 or 16 miles. To accommodate a purchaser or purchasers, I would dispose of the property at this place, or any part thereof, separate from the other lands—the annual rent of the small part now improved, is near eight hundred dollars, and at little additional expense would produce from one thousand dollars to twelve hundred dollars per annum, exclusive of lots that might be sold, or rented on ground-rent, and I would divide the land in two or three parts to suit purchasers. On that part occupied by myself are a comfortable dwelling-house sufficient for the accommodation of a large family, with barn, stables, and other convenient out-houses, orchards, &c.—As it is presumed a person disposed to purchase would first view the premises, a further description is thought unnecessary.

A small piece of Land within one and a half miles of the court-house, situate on Accotink Run, containing 19 acres, mostly rich and valuable grass land, which affords a tolerable mil seat, and was purchased with a view of erecting one thereon, the timber for which [of excellent quality] hath been cut and squared.

A Lot in the town of Alexandria, with a two story brick house, kitchen and stable thereon, situate near the center thereof—and

About 1600 acres of Land, situate on the waters of Licking, in the county of Bourbon and state of Kentucky. This land is classed as second rate, is rich, lies well, and by judges of that county said to be worth from five dollars to eight dollars per acre, and on which are several small settlements.

## ADDITIONAL EVIDENCE.

OF the great efficacy of the *Patent Family Medicine*, prepared by the late Richard Lee, jun. which for near eight years past have acquired throughout the United States a celebrity hitherto unequalled.

Philadelphia, August 9, 1800.

Being desirous to make public for the good of others, the excellent quality of *HAMILTON'S ELIXIR*, prepared by the late Mr. Lee, I have sent you the following account of the benefit I have received from it, which I hope will induce others to give it a trial. In consequence of a bruise on the breast received from a fall, my health grew bad, my breathing became very difficult, and frequently I have had suddenly to rise up in my bed with all the horrors of immediate suffocation. Add to these a constant pain in my breast and a cough, a great loss of strength and flesh, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, without giving me any relief. Another physician who knew me and the circumstances of my case, advised me to give *Hamilton's Elixir* a trial, saying, he had used it in his practice, and always found it to do much good. A bottle was procured from Mr. Birch's, and I found relief before I had taken one half of it. I continued to use it and was soon strong enough to attend to business. On taking cold, some of my former symptoms return, but are always removed by a dose or two of the elixir.

Geo. BENNER, jun.  
No. 11, Broad-street, Philadelphia

From *Luther Martin, Esq. late Attorney-general of the State of Maryland.*

I comply with your request in stating my opinion of *Hamilton's Elixir*. It has been used in my family for two or three years past, with uniform success, whenever colds, coughs, or similar complaints, have rendered medicine necessary. I have myself found it an excellent and agreeable remedy for a very painful and troublesome affection of the breast, accompanied with soreness, and with obstructed and difficult breathing.

On these accounts I do not hesitate to recommend *Hamilton's Elixir* as a valuable medicine, and deserving public attention.

LUTHER MARTIN.

## HAMILTON'S ELIXIR

Is recommended as the best remedy for coughs, colds, asthmas, hooping-cough, approaching consumptions, and most disorders of the breast and lungs. This preparation will prove a valuable acquisition to public speakers who may be subject to temporary hoarseness, thickness of speech, &c. In long confirmed Asthmatic complaints where a cure can speedily be expected, this medicine affords immediate relief, moderating the fits of coughing, and rendering their recurrence less frequent. On children afflicted with the hooping cough, the like beneficial effects may confidently be expected.

## ITCH CURED.

By once using *Lee's Sovereign Ointment*, which, although used for 20 years in Europe and for near 8 years in America, has never been known to fail in any one instance. It is perfectly innocent, warranted not to contain a particle of mercury or any pernicious ingredient, and may be used with perfect safety on an infant, being a vegetable preparation and entirely free from the offensive smell which attends most other remedies.

## HAMILTON'S LOZENGES.

Which have cured more children and adults of disorders proceeding from worms, than all the medicines heretofore discovered. In addition to the great cures mentioned in the letters from the chancellor of the state of Maryland, the Rev. Mr. Molthier and others, lately published the following are submitted to the public, being selected for the purpose of shewing the mild yet powerful qualities of this extraordinary medicine, which, although so mild in its operation, is competent to expel the formidable tape worm.

An infant, aged 5 weeks, of Mr. Henry Eybank, taylor, Charles-street, Baltimore, was dangerously afflicted with convulsion fits, so that his life was despaired of, but was perfectly cured by one dose of *Hamilton's Worm-Lozenges*, which expelled several worms, the undoubted cause of the child's disorder.

Letter from Mr. Ackerman, bricklayer, Magazine-street, near Broadway, Jan. 24, 1802.

It would be ungrateful were I to withhold my testimony in favor of *Hamilton's Worm-Lozenges*. I had been between five and six years past much indisposed, and latterly often tormented with severe griping and pains in the bowels, troubled with offensive breath, with violent feverish fits, and other obvious symptoms of worms; but frequently hearing your *Worm-Lozenges* recommended in cases similar to mine, I determined on a trial of them, as my last resource. The first dose evacuated twelve or 13 feet of a tape worm; two other doses were taken, which brought away a quantity of matter broken like skins and pieces of worms. I suppose the tape worm, voided at different times, must in the whole have exceeded forty feet. The almost incredible benefit I received from this medicine, induced me to give a dose to a child of mine who was pining and sickly: it produced the same good effect in this instance, expelling a worm of a different kind, from nine to twelve inches long, and at the same time restoring a good state of health.

HENRY ACKERMAN.

Also,

The following new and valuable Medicine, just received and for sale as above.

(Price, Two Dollars per bottle.)

### Dr. Tissot's celebrated Gout and Rheumatic Drops.

NOTHING is of more importance than the preservation of health—this common place remark however is too often forgotten, whilst we are active and strong—and prevention of pain, which is superior to its cure, is not sufficiently attended to by any description of persons. Among those disorders which require the most early and unremitting efforts to eradicate and overcome, none have a stronger claim upon our notice than the Gout, Rheumatism, Lumbago, Weakness of the Joints, Sprains, Glands, the Stone and Gravel, the Cramp and every species of Rheumatic Pains from whatever cause they may have originated—and hence every relief which can be administered is too valuable to be forgotten. Those persons whose avocations peculiarly expose them to colds, &c. cannot be too anxious always to possess immediate aid. Sea-faring persons, travellers, &c. ought constantly to carry with them that medicine which will counteract the unpleasant effects of their perilous duties, and especially those pains to which their situation must expose them. To those who reside in or visit the West-Indies, and other warm climates, they will be found upon

trial to convey the most lasting service, and will gradually destroy all tendency to disease in the human frame, and preserve health and vigor. Although a great variety of prescriptions have been published to cure the disorders enumerated above, none has yet equalled the *GOUT AND RHEUMATIC DROPS* of Dr. TISSOT, which are celebrated throughout the European continent, and whose unbounded benefits are fully authenticated by certificates already published of gentlemen so well known in America, being of the first consequence in the state of Maryland: General Charles Ridgely, of Hampton; John Gibson, Esq. one of the directors of the Farmers' Bank of Maryland; John Macubbin, Esq. Mrs. Macubbin, his wife; and Mrs. Ryan, of Calton.

*Certificate of Mr. Thomas Kelso, butcher.*  
About three weeks since, I was most violently attacked with Rheumatic pains throughout my whole frame, in so severe a manner as not to be able to turn in my bed without assistance, proceeding as I suppose from a severe cold; on being advised by a friend to apply Dr. Tissot's Gout and Rheumatic Drops, I accordingly obtained from the agents Messrs. George Dobbin and Murphy, two bottles, the application of which, under God, have perfectly restored me to health. I am therefore induced with confidence to recommend this medicine as a certain cure for the above disorder.

THOMAS KELSO.

Baltimore, July 22d, 1806.

*Certificate of Mr. Thomas Campbell, Harness-maker.*

It would be an act of injustice to withhold my testimony of the salutary effects of Doctor Tissot's Gout and Rheumatic Drops, as I have experienced a very unequivocal instance of their virtues and efficacy. I was afflicted with two severe attacks of what is usually called Dead Palsy, from which I partially recovered, but was obliged to use crutches to aid me in walking when I left home; to this were joined violent Rheumatic pains, the result of the affliction, and I had feared the disorder would accompany me through life; but providentially was recommended to apply at George Dobbin and Murphy's for Dr. Tissot's Drops, and after using only one bottle, found myself perfectly liberated from my disorder, and am now, thank God, as free from pain as if I never had been afflicted. Finding this medicine operate so powerfully on myself, I determined to apply it internally to my child, a boy only eleven months old, who was then reduced almost to a skeleton with the Bowel Complaint; after administering it four times to him, his complaint was entirely removed, and he is now recovering his strength with great rapidity.

TH. CAMPBELL.
